Jagrut Thakare

SDE at Logituit

Amravati, Maharashtra, India

Summary

Software Engineer at Logituit

Skills: AWS | GCP | Kubernetes | Python | AI/ML | Hugging Face | Django | Java | SQL | Web Development

Experienced in designing, developing, and deploying scalable software systems using cloud technologies and AI integration. Skilled in leveraging AI-assisted development to accelerate delivery and optimize performance across backend, ML, and infrastructure domains.

Experience

Logituit

Software Engineer

June 2025 - Present (6 months)

Amravati, Maharashtra, India

At Logituit, I work across the full software engineering stack — from AI to infrastructure.

AI/ML: I implement and integrate machine learning models into production-grade Python applications.

Backend: I develop and debug backend services in Python and JavaScript, designing APIs that align with business needs.

Infrastructure & DevOps: I build, deploy, and maintain scalable applications on Google Cloud and Rancher, managing Kubernetes clusters for reliability and performance.

This cross-domain exposure helps me bridge AI systems with real-world software, delivering end-to-end solutions from experimentation to deployment.

Logituit

Software Engineer Trainee

January 2025 - April 2025 (4 months)

Amravati, Maharashtra, India

Completed foundational training with Python and a Django-based Task Management System deployed on AWS. Subsequently contributed to a real-world AI project, developing multiple Hugging Face Spaces for image generation, inpainting, and object removal using models like Stable Diffusion, LaMa, and SDXL.

The Sparks Foundation

Intern

December 2022 - December 2022 (1 month)

India

Education

Sant Gadge Baba Amravati University, Amravati

Bachelor of Engineering - BE, Computer Science · (December 2021 - May 2025)

Jawahar Navodaya Vidyalaya (JNV)

HSC, PCMB · (July 2019 - May 2021)

Vishwabharati Public School

SSC, Science, Mathematics, Social Science, Marathi, Hindi · (July 2013 - May 2019)
